

## Bicyparc A-11

Le modèle unilatérale est toujours le plus prisé de nos rangements pour cycles.

Le support en cornière 35x35 mm avec berceaux en tubulaire 19x1,5 mm, galvanisé, permet de réaliser des rangements de hauteurs alternées haut/bas. Les articles "A-11-MB" sont proposés à un prix avantageux.

Tant en unilatéral qu'en bilatéral, le système existe en plusieurs longueurs. Les systèmes d'ancrage sont également proposés en plusieurs versions optionnelles.

### ARTIKELNUMMER: 00.003.037

A-11 cycle rack, 3 place, c.t.c. 375mm, length 1125mm
